

SoBro2020 Building an Equitable Future

VIRTUAL COMMUNITY SUMMIT

SoBro has been providing critical programs and services for the residents of the South Bronx and beyond for over 48 years. Annually, we serve over 5,500 + residents with our comprehensive and innovative approach for preserving and developing quality and sustainable affordable housing, providing critical services for small and minority owned businesses, programming for adult and youth education as well vocational training, and green initiatives.

Our three-part virtual community panels will host conversations with key practitioners, along with government and community thought leaders and influencers, as we discuss the futures of our communities and residents. Our focus will be specifically on the current economic and programmatic impacts to supportive housing, youth development and small businesses, and the future opportunities of providers and advocates. We will explore the issues facing these critical populations and businesses, while looking at funding needs and the development of new and emerging concepts to strengthen, build and deliver the best in class solutions for our greatly impacted communities.

Throughout this series, SoBro will be focused on addressing the needs of our at-risk communities with our partners and employing all our programs, services, and staff to ensure the long-term viability of our communities.

PANEL 1: SOCIOECONOMIC INEQUALITIES & ITS IMPACTS ON OUR YOUTH

NOVEMBER 16, 2020 @ 12 NOON EST

This session will be focused on our community's youth, the loss of educational attainment, limited socialization, and the inadequate resources for remote learning during this pandemic. We will also touch upon racial inequities existing in the educational system, how our youth are impacted, and what we can do as advocates to support the educational and vocational needs of our children.

PANEL 2: SMALL BUSINESS: 2020 CHALLENGES, 2021 OPPORTUNITIES

DECEMBER 14, 2020 @ 12 NOON EST

This session will focus on challenges that affect small businesses in the Bronx today – assessing the funding and educational needs for our entrepreneurs and the needed services they bring to our neighborhoods. We will also explore systemic challenges to ensuring access to opportunities for our small businesses and highlight creative avenues to address these dynamics.

PANEL 3: BEYOND BRICKS & MORTAR: SERVING AT RISK POPULATIONS

JANUARY 25, 2021 @ 12 NOON EST

At risk and/or disenfranchised populations face a myriad of challenges impacting their efforts to secure permanent and quality housing. This panel will focus on the LGBTQ, disabled, and special needs communities – framing key issues, innovations in housing and services, and the focus on what priorities are needed in the future to serve these communities.

ALL WEBINARS START AT 12 NOON EST
